

## Global FinTech Hackcelerator Monetary Authority of Singapore

*Building impactful, contextualised and market-ready fintech solutions for the financial industry*

### It's about quality and speed

Find the 20 best fintech startups globally to participate in the MAS Hackcelerator programme and [Fintech Festival](#) in Singapore. The fintechs must solve 1 or more of the 100 problem statements that were grouped into 4 categories: Customer-Facing, Financial Inclusion, RegTech, and General.

### It's about what we put in.

We are not just a platform or plug and play challenge. We proactively reach out to thousands in our network and beyond.

These teams participated in a 12-week programme, led by KPMG Digital Village, during which they will work and meet with corporates, investors, partners and regulators.

The teams present a working prototype of their solutions at Demo Day, on 16 November, followed by a Q&A session with the judges. The Demo Day judging panel, representing a cross-section of the financial industry, will evaluate teams on their relevance to address the problem statement, company's business potential, innovativeness of idea, and team profile and ability to execute, to select the winners.
